

INSTRUCTIONS: Create a word document with the copy you require on your invitation. Test the placement by printing out and lining up with our print. Once you have the correct placement, you can print colour copies of our invite and then place back into the same printer or a black and white printer and print your copy on top.

©

INSTRUCTIONS: Cut along the outside line. Fold the flaps inwards to make the envelope. Use double sided tape or glue to stick the flaps down, except the top flap.
