

# SouthBound Bride

## Submission Information

---

**Please read through all the information below:**

1a. If this is a wedding, please **FIRST** send us the bride/groom's email address so that we can mail them the standard questionnaire.

1b. If the submission is a styled shoot, please send us a short description of it and a **FULL** list of service providers involved as well as their links.

1c. If you are sending a couple shoot, we don't need to speak to the bride and groom directly, but if you can, please include any info you have on their love story/proposal.

2. Select your images for submission. For a wedding, anything from around 65-150 pictures is perfect - please don't send us all 900+ images from the day. Please be sure to include clear pictures of the following: the bouquet, the tables (more is better!), the bridesmaids, the decor and any interesting or unusual details as well as the general images from throughout the day. Although some black and white shots are okay, please focus more on colour, especially for decor.

3. Images can be resized to 610px across minimum (a little larger is okay too, if you prefer). NB: Please make sure that portrait images are also 610px across the bottom, to ensure better photo selection. If you're using BlogStomp, select 1000px as your size.

4. Please do not include any watermark.

5. If you have already put images into collages of two or more, please send the original, separate images as we are likely to combine them differently.

6. Please send images via file sharing or email. Dropbox is our favourite! Please name the folder using **YOUR** name (we get hundreds named 'SouthBound Bride', 'SBB' or 'Gaby' ;))

Please email this completed questionnaire back to [influencers@southboundbride.com](mailto:influencers@southboundbride.com)
